

## REMARKS

### Paragraph 1

No response is necessary to the recitation of statutory basis for terminal disclaimers.

### Paragraph 2

The Examiner, in paragraph 2, has rejected the claims (29-45) on the basis of double patenting in light of mutually owned US Patent No. 6,698,789, of which the present application is a continuation. Applicant has overcome this basis of rejection by insertion of the Terminal Disclaimer set forth above.

### Paragraph 3

No response is required to the recitation of statutory law, as presented in Paragraph 3.

### Paragraph 4

The Examiner rejects claim 37-39 and 43-45 on the basis of Section 102(b), as anticipated by *Nemeth* (US Patent No. 4,106,583). Although Applicant disagrees with this basis of rejection, Applicant has, in the interest of economy, elected to cancel claims 37-39 and 43-35. The amended claim set, set forth above, shows the cancellation of the rejected claims, thus mooting the rejection.

### Paragraph 5 / Conclusion

In conclusion, Applicant asserts that the remaining claims 29-30, 32-36 and 40-42 are now fully allowable and prompt issuance of such is respectfully requested. It is noted that inadvertently omitted claim 31 has been officially amended as having been “(not entered)” and so is not in the listing of allowable claims.

The Examiner is also specifically requested to note and cite all of the nominal prior art set forth in the Information Disclosure Statements submitted by Applicant in the parent case to this matter, that case being serial number 09/776,041, now US Patent No. 6,698,789.

Having responded to all of the paragraphs of the Office Action, Applicant respectfully submits that the Application is now in condition for allowance. Applicant therefore respectfully requests that a Notice of Allowance be forthcoming at the Examiner's earliest opportunity. Should the Examiner have any questions or comments with regard to this amendment, a telephonic conference at the number set forth below is respectfully requested.

Respectfully submitted,
